

CASE STUDY – TEDCO BUSINESS CENTRE, JARROW

Project Brief – To provide different types of breakout areas throughout the business centre. The business centre comprises both office space and manufacturing units.

Process – 2D plans were produced to decide upon to the correct layout. Consultation with the client considered colour schemes, finding the right look and feel for each breakout area and practical considerations such as flexibility of use and durability of the products in different works areas.

Project details – For meeting area breakout zones among the office space we provided Sven HB chairs and walnut coffee tables providing a smart, contemporary and flexible space.

CASE STUDY – TEDCO BUSINESS CENTRE, JARROW

Project details – In breakout areas around communal kitchens bistro tables and chairs were provided. In the manufacturing areas which can be dirty and dusty we supplied simple but strong products in the form of a contemporary take on the classic polypropylene chair and heavy duty tables.
